### RST56 Signal Towers

**Voltage** 24V DC(Positive and negative logic)

**Ingress protection** IP66/IP69K

**Light:** LED permanent

**Sound** Max90dB (Adjustable, Pulse/continuous tone)

# RST 56 Signal Tower

**Additional Transparent Housing**  
strengthened safety,  
extends its duration

**Dual Mounting Options:**  
base/tube/foldable  
/installation

**IP66/IP69K**  
ideal for industrial  
environments

**Adjustable buzzer**  
Max90dB, dip  
switch to adjust

**360° Strong  
Visibility**  
from all  
the position

**2-5 Tiers Plus  
Buzzer as Option**  
match majority  
application

In 2021, based on customer needs and market trends, RST56 came into being. RST56 is a pre-assembled signal tower with white housing and 2 to 5 layers for customers to choose. Unlike conventional signal tower appearance, RST56 has an extra layer of transparent protective housing, which not only improves the appearance identification and beauty, more importantly, it strengthens the protection of the signal tower and extends its duration. RST56 supports a variety of mounting methods, such as base mounting, tube mounting, foldable base mounting, installation, etc. Customers can choose according to actual needs. The protection level of IP66/IP69K meets the application of most industries and specific food industry and pharmacy production and packaging industry. RST56, which has a soft but bright luminous lighting effect, will surely become the extra glamor of your equipment.
